Subject: Request for Publication – Injustice and Administrative Negligence in GPS Khongka Posting Error

Dear Editor,

Through the columns of your respected newspaper, we, the Khongka Students' Union, wish to express our deep concern over a serious and unresolved error by the Department of School Education, Nagaland, regarding the posting of a retired teacher to our school.

As per Government Order No. **EDN/PLN/RATIONALIZATION/2023** dated **10th February 2025**, **Shri H. Khumkiu** (Employee Code: **EDN/04631**) was transferred from **GMS Y. Anner to GPS Khongka**. However, **Shri Khumkiu** had **already retired** from government service on **31st August 2024**, as confirmed by **Release Order No. ED/EST/B-46/2022** dated **11th September 2023**. This means the department, through the rationalization order, effectively assigned a teaching position to an individual who had ceased to be in service months prior—an error that has remained uncorrected to this day.

To add to the confusion, this transfer was made in place of **Shri M. Tojikiung** (Employee Code: **EDN/04754**), disrupting the staffing and functioning of GPS Khongka. Although the Department issued **Notification No. RTNL/2019** dated **17th February 2025** putting all rationalization orders on hold “in the interest of public service,” it has not been implemented in letter or spirit. Many transferred teachers continue to serve and draw salaries at their new postings, while this blatant posting error involving a retired teacher has been ignored.

The **Khongka Students' Union** first raised this issue on **11th February 2025** through the **SDEO, Pungro**, and it was forwarded via **Letter No. EDN/SDEO/PRO/EST/2024-25/189** dated **12th February 2025**. A follow-up was submitted on **20th February 2025**, and a direct representation was submitted to the Principal Director on **20th June 2025**. Regrettably, we have received no communication or action from the Department to date.

This ongoing neglect is not only a matter of administrative failure but also a blow to public trust in the education system. **Khongka Government Primary School** has been recognized for its excellent performance and ranks among the top in enrollment in the district—a result of strong community involvement and dedication. However, incidents like this demoralize our people, disrupt educational continuity, and show a serious lapse in governance.

We, therefore, urge the Department of School Education to immediately **rectify this posting error** and ensure such oversights are not repeated. A timely correction will go a long way in restoring community confidence in the Department's commitment to quality and accountability.

Sincerely,

Thrunso R
